

CURSED FARMERS OF INDIA

BANKERS ATTITUDE

⇒ Two issues that merits attention and action. ⇐

1. A nationalized bank in Andhra Pradesh has displayed the photos of the farmers in the Bank's notice board and also the village revenue office.

Will the banks do it for industrialists defaulters?

2. The banks have advanced 20,000 crores to "Farmers in Delhi" during 2009-10 which has 26,785 hectares of cropped land.

On the contrary the agrarian states Uttar Pradesh (164.17 million hectares), West Bengal(52.96 MH), Bihar(56.65MH) and Jharkhand(13.36MH) with 287.04 million hectares have received 31,000 crores crop loans in 2009-10.

What should we do about it?
